

Have your say!

We want to make it easier for people to walk, wheel and cycle in your area

We are looking at **Faenol Roundabout** and some of the routes which you can take to and from it:

Why are we doing this?

We know lots of people already like to walk, wheel and cycle in this area.

But we have been told that crossing the roundabout feels dangerous, and the path on Faenol Hill is too narrow.

We want to solve these problems and make it easier to walk, wheel and cycle.

Walking, wheeling and cycling can be a great way to move around, go to school, the park or the shops.

Some of the benefits are:

- It's brilliant for your health, giving you more energy
- It's good for the environment, helping us do our bit for the planet
- It's low cost, giving you more money to spend
- It's a great way to explore your local area

What's the plan?

We will make it safer and easier to walk, wheel and cycle near Faenol Roundabout. We will do this by:

Putting traffic lights on Faenol Roundabout so people can cross the road safely

Reducing the speed limit to 50mph

Widening the walking and cycling path on Faenol Hill
Improving the junction at Penrhos Road so people can cross safely

What will it look like?

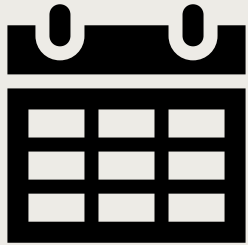

Mott MacDonald

Mott MacDonald Restricted

When is this happening?

We want to start building the new roundabout crossings in **2025**.

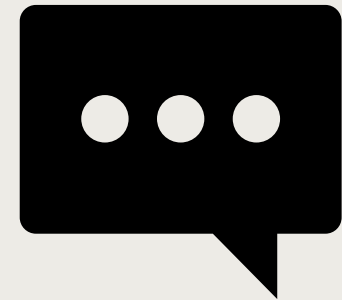

Other improvements, like widening the walking and cycling paths, will be delivered later.

Have your say!

We would love to hear what you think about our plans. Please think about these questions:

1. What do you like about the scheme?
2. Do you have any concerns about the scheme?
3. Do you have any suggestions for how we could improve the scheme?

Please use this link to provide feedback – **[Consultation on Active travel provision: A487 Faenol Roundabout, Bangor \(llyw.cymru\)](#)**

You can also email feedback or request a paper form by emailing **A487Faenol@mottmac.com**

We are excited to start building this project in your community!
