Building Control Charges

Notes to accompany Charges Tables A, B, C, D, E, F, G and H.

General Notes

- 1.** The Gwynedd Council Building Control Charges Scheme is derived from the Local Government Association's Model Charges Scheme, drawn up in accordance with The Building (Local Authority Charges) Regulations 2010, which should be referred to on any point of clarity, or legal interpretation.
- 2.** Before you carry out building work, you must ensure that the necessary Applications / Notices are submitted to the Authority.
- 3.** If you submit a Full Plans Application, the local authority will examine it and normally advise you of any necessary changes required to meet the Building Regulations. Building Control Officers will then inspect the work at various stages during construction.
- 4.** If you submit a satisfactory Building Notice, no accompanying plans will be checked for compliance. However, Building Control Officers will visit the site at additional intervals to determine compliance with the Building Regulations.
- 5.** All charges are subject to VAT (excluding Regularisation, Street Naming & Numbering, Demolition, and Dangerous Structures charges), and are payable as follows:
 - 5.1 Full Plans Application:**
 - a) A Plan Charge, which covers the passing or rejection of the plans, and is payable when the Application is deposited;
 - b) An Inspection Charge, which covers the inspection of work to which the plans relate, and is payable on demand at any time after the first inspection.
 - 5.2** A Building Notice Charge is a once and for all payment irrespective of the number of inspections made by the Building Control Officer which is payable in full when the Application is given to the Authority. The Building Notice charge payable is the amount equal to 115% of the total Full Plan charge, plus VAT. Items 9, 10, 11, 12 and 13 of Table B are exceptions to the 115% charge.
 - 5.3** The Regularisation charge will be 150% of the total plan and inspection charge as set out in the tables of fees. Where the work is outside the scope of the tables, the charge will be individually determined.
 - 5.4** A Reversion Charge is payable on the first occasion the plans are deposited with the Authority.
 - 5.5** Street Naming & Numbering and Demolition charges are payable when the Application / Notice is deposited
 - 5.6** Dangerous Structure Charges are payable by the property owner. An initial administration charge is payable and subsequent charges are calculated based on an hourly rate. These charges are in addition to all statutory charges as outlined in Section 77 and 78 of the Building Act 1984. All charges will be invoiced by the Building Control Unit.
- 6.** The Application or Notice, as applicable, must be accompanied by the appropriate charge (and, where necessary, a reasonable estimated cost of building work) otherwise it will be deemed as not having been submitted and site work should not commence.
- 7.** In certain cases the Local Authority may agree to charges being paid by instalments. Please consult your building control office for details.
- 8.** Where plans have been either approved or rejected, no further charge is payable on resubmission for substantially the same work.
- 9.** The following submissions are not subject to a charge:
 - 9.1** Insertion of insulating material into an existing cavity wall, providing the installation is certified to an approved standard and the work is carried out by an approved installer;
 - 9.2** Installation of an approved unvented hot water system where the work is carried out by an approved operative or is part of a larger project;
 - 9.3** Building work to provide access and facilities solely for disabled persons in dwellings and buildings to which the public have access.

Continued on page 2...

Building Control Charges

Notes to accompany Charges Tables A, B, C, D, E, F, G and H.

10. The amount of charges payable depends on the type of work shown in the following tables. Should you have any difficulties determining the charges, please contact the building control office.

Footnotes

"the Act" means the Building Act 1984;

"the Approved Inspectors Regulations" means the Building (Approved Inspectors etc) Regulations 2010;

"building" has the meaning it has in the Principal Regulations;

"building notice" has the meaning it has in the Principal Regulations;

"building work" has the meaning it has in the Principal Regulations;

"carport" means a building forming a shelter for a vehicle, open on at least two sides;

"cost" does not include any professional fees paid to an architect, quantity surveyor or any other person;

"disabled person" means a person who is within any of the descriptions of persons to whom section 29(1) of the National Assistance Act 1948 applied, as that section was extended by virtue of section 8(2) of the Mental Health Act 1959, but not taking into account amendments made to section 29(1) by paragraph 11 of Schedule 13 to the Children Act 1989.

"dwelling" has the meaning it has in the Principal Regulations;

"estimate" in relation to the cost of carrying out building work, means an estimate, accepted by the local authority, of such reasonable amount as would be charged for the carrying out of that building work by a person in business to carry out such building work (excluding the amount of any value added tax chargeable) and references to "estimated cost" shall be construed accordingly;

"extension" means an extension which has no more than three storeys, each basement level (if any) counting as one storey;

"the Principal Regulations" means the Building Regulations 2010 (as amended) ;

"small domestic building" means a building (including connected drainage work within the curtilage of that building):

a) which is used or intended to be used wholly for the purposes of one or more dwellings, none of which has a floor area exceeding 300m², excluding any garage or carport;

b) which has no more than three storeys, each basement level being counted as one storey, including such a building which incorporates an integral garage or to which is attached a garage or carport or both which shares one or more walls with that building.

In the Regulations:

a) the floor area of:

- i) any storey of a dwelling or extension; or
- ii) a garage or carport,

is the total floor area calculated by reference to the finished internal faces of the walls enclosing the area, or, if at any point there is no enclosing wall, by reference to the outermost edge of the floor;

b) the total floor area of any dwelling or extension is the total of the floor area of all the storeys which comprise that dwelling or extension.

TABLE A - Charges for New Dwellings

(Does not include conversion / change of use to form dwellings - see Table C)

Table A charges are based on Houses, Flats and Maisonettes which do not exceed 300m² in area and/or 3 storeys in height.
